N63 THREADED CHOKE

WORLD'S FIRST 3" THREADED INLINE REPAIRABLE CHOKE

Less Down Time =
MORE Production Time

**MEET
THE**

N63 CHOKE

TC LOK

The easiest 3" threaded choke on the market to **REPAIR IN-LINE**. Now you can quickly and easily repair your 3" threaded choke in the field just like you can with your traditional 2" N60. TC LOK is Superior's exclusive design for attaching Tungsten Carbide noses to choke stems, up to 7x's stronger than traditional brazing. Don't forget you will need a new choke wrench to change out the seat.

SPECIFICATIONS

- 3" LP Connections
