## A SAFE BET
ESG + STV

**Superior Tubular Valves** are manufactured to offer a **higher** standard in sight flow indication management. Our bodies are made in a forging process opposed to a casting process. Forged products are **stronger** and more **reliable** than that of castings. By using forged materials, the likelihood of imperfections in the material is reduced to almost zero. When used in combination with the **Environmental Sealed Gauge Glass,** we provide a superior amount of operator and **environmental safety**.

**ESG** Environmental Sealed Gauge

**STV** Superior Tubular Valve

### ENVIRONMENTAL SEALED GAUGE (ESG):

- Eliminates two most common breakage points: installation & impact
- Replaces unprotected gauge glass
- Stainless Steel nozzles
- Availale in custom sizes

### SUPERIOR TUBULAR VALVE (STV):

- Available in Carbon Steel or Stainless Steel
- All valves are manufactured with Stainless Steel internals
- 1/2" or 3/4" NPT Connection
- 5/8" or 3/4" Glass Gland Connection
- 500psi Working Pressure
- Inline Vent & Drain Connection
- STV-XXXX-T:  100% Hydro-Tested to 1.5x working pressure

**DON'T FORGET**
